

UNDERWATER ELECTRICAL AND FIBER OPTIC CONNECTORS

NEWS BULLETIN

SEACON Brazil

Due to continuing expansion **SEA CON**® of San Diego, California, USA is pleased to announce the opening of a new sales office in Brazil.

SEACON Brazil located in Tijuca, Rio de Janeiro will be managed by Renata Mercante Born, an Oceanic Engineer with a Master of Science Degree who brings a wealth of experience having previously worked for Petrobras/CENPES for 6 years as an Equipment Engineer conducting research and development of optical products and production in well engineering technology.

Founded in 1964, the **SEA CON**® Group have become worldwide leaders in the manufacture of underwater electrical connectors and fiber optics providing solutions for many applications within the Oil & Gas, Defense, Oceanographic and Environmental markets.

The opening of this new sales office in Brazil will enable **SEA CON**® to not only focus on business development and sales requirements of many customers in this area, but also provide full engineering, product and service support to the South American offshore drilling market. This will include stock of our popular optical and electrical connector systems that are widely used throughout this industry.
