Frequently Asked Questions

Q: Can you deploy technicians ASAP?

A: Yes, we have the ability to deploy technicians within 4 hours from receipt of call for service.

Q: Is there someone I can call for general questions, troubleshooting or advice?

A: Yes, we have a full line of hands-on professionals who can walk you through any question or maintenance assistance need.

Add Value to Your Business

TE SEACON technician flexibility allows our customers to reduce costly overhead by keeping only core staff and hiring TE SEACON technicians for overflow work only when needed. TE SEACON is always professional and safe, taking pride in the work we do.

“No matter what time I have called you, you have always immediately done what is possible to get us an answer or advice - no matter what time it is in the US! We definitely appreciate your efforts....”

-Electrical Supervisor, Drilling Company
